

A wide-angle photograph of a large, modern hospital building with a curved facade. The building features multiple stories with a mix of beige walls and large glass windows. A prominent glass-enclosed entrance is visible, supported by a white overhang. The foreground consists of a paved road and a green lawn. The sky is clear and blue.

OUR OWN WAY

TEACHING PRIVATE HOSPITAL OF CÓRDOBA

For six decades, we have been developing our own vision and our own way of practicing medicine. Improving our patients' quality of life is what motivates us to help, accompany and support them by means of a comprehensive service.

Encouraging medical research, teaching, helping patients and constantly improving the quality of our services are the cornerstone of our devoted mission, oriented towards guaranteeing quality care and safety.

INFRASTRUCTURE AND TECHNOLOGY

While we grow
and expand,
patient wellbeing
is always at the heart
of this process.

Our Hospital has 5 (five) totally remodeled floors, fully equipped with highly advanced devices, strategically distributed in more than 30,000 m².

- 10 operating rooms
- 260 hospital beds
- 35 beds in the Intensive Care Unit
- 5 pre-birth rooms
- 2 delivery rooms
- 2 hemodynamics rooms

A pregnant woman with dark hair is lying on a hospital bed, wearing a light blue hospital gown. She has a serene expression with her eyes closed and a slight smile. Medical equipment, including a fetal monitor with a purple strap on her belly and various tubes, is visible in the background. The scene is set in a clinical environment with soft lighting.

CARE AND INNOVATION

Technology, functionality and comfort are the pillars that support each extension and improvement of the quality of our services.

Thus, we have inaugurated new admission spaces, including VIP rooms and other facilities for patient companions, renovated Neonatology and Oncology areas, state-of-the-art operating rooms, Intensive Care Units for children and adults, a sterilization unit, a day time Hospital, and a Catheterization Laboratory.

CLOSE TO OUR PATIENTS

We bring our medical excellence closer to all neighbors of the city, through peripheral units located in strategic points.

- 1 · Parque Vélez Sársfield
- 2 · Patio Olmos Shopping mall
- 3 · Paseo Libertad Shopping mall, Rodríguez del Busto
- 4 · Cerro de las Rosas
- 5 · San Vicente
- 6 · Jardín Espinosa,
Rehabilitation and Fitness Center
- 7 · Villa Allende Shopping mall
- 8 · Villa María,
Outpatient Cancer Center

PIONEERS

Developing computer technology for the health sector

Thanks to computerization in the hospital, through the Electronic Medical Record (EMR) we have the most complete and continuous record for each patient in our health network, which guarantees safety processes and quality in medical care.

Moreover, our patients can safely access anywhere their EMR, which has a user-friendly and easy to interpret format. Here, they can schedule doctor appointments and find personalized and trustworthy information about their health status.

PROFESSIONALS

A BIG TEAM EFFORT

We are part
of a great team
who gives the best
of us to each patient
every day.

We constantly
train and learn
from world leaders
in each specialty.

Our professionals are constantly updating on each area, thanks to permanent training programs and fluid exchange with colleagues in prestigious institutions worldwide.

With the creation of our own outpatient centers and agreements with medical institutions from Córdoba city and the whole country, hundreds of health care providers and professionals are added to our proposal expanding, in this way, patient care beyond Hospital boundaries.

RESEARCH

MORE THAN 50 YEARS

Forming high-class professional specialists, capable of practicing medicine with an ethical and humane attitude.

With more than 700 medical doctor graduated from the different residencies, we continue to train high-class professional specialists, capable of practicing medicine with an ethical and humane attitude, and constantly improving the quality of professionals and training programs, promoting clinical research and maintaining a permanent channel of contact with universities and other educational centers.

PREVENTION AND
DISEASE FOLLOW-UP

Dr. Aldo H. T.

Detecting a disease and intervening early is fundamental, particularly in the development of chronic ailment.

We offer an exclusive remote follow-up program, that identifies possible conditions in people currently healthy, in order to minimize risks and future ailments. We implemented this preventive tool with a multidisciplinary medical team that analyses clinical indexes holistically, expected projections, and personal information of each patient (family background, daily activities, etc.), in order to issue a reliable and accurate prognostic and act accordingly.

QUALITY AND COMMITMENT

We are under a systematic and continuous process of evaluation of our services and assistance activities, in pursuit of ensuring top-level quality, safety, and efficiency when assisting our patients

Committed to a high quality service, at Hospital Privado, we work towards reaching international recognition awarded by the Joint Commission.

Moreover, we have implemented digital solutions to guarantee the safety and wellness of our patients. In 2016, the Hospital Privado was awarded a stage 6 HIMSS EMRAM certification by the Healthcare Information and Management Systems Society (HIMSS) thanks to the potential of the HISINNOVA software and its correct so as to provide a better quality service and improved safety to the patient.

OUR OWN WAY

We have been creating and developing a vision and a style of practicing medicine.

We create opportunities and promote research development, expert training and ongoing innovation.

By forming multidisciplinary teams and creating our own tools and protocols, we are able to provide quality medical services to the whole community.
