

INTEGRAL SOLUTIONS

BUSINESS COMPANY EXPERT IN HEALTH

The Department of Systems of Hospital Privado conceived **TIPS**, a healthcare company that offers comprehensive solutions for prevention, medical assistance and hospital management for public and private healthcare medical.

Knowing healthcare sector problems from the inside, enable us to provide reliable solutions, both as a provider and financier, making us a healthcare expert company. We work as an interdisciplinary team, with involvement of every area: medical consultation and admission problems, administrative (appointments, billing), direction (costs, profit), health insurances, prepaid medicine plans (preventions, chronic patient management, audits), with consideration of both private and public healthcare issues.

Business Management in Health

HIS^{INNOVA}

The application of electronic systems in hospital and clinics is trending in developed countries. These centers are currently adopting comprehensive systems that cover both administrative and medical functions.

Nuestra herramienta informática HISINNOVA es un registro longitudinal cronológico, que integra la información de diversos ámbitos de atención y brinda un valioso aporte para dar soporte a la toma de decisiones médicas durante la atención, la investigación y la estadística, así como para la gestión institucional.

 Tips

HIS^{INNOVA}

Includes a tool that covers patient's records and administration support systems needs.

Optimizes quality service

- Advise in medical decision-making.
- Patient information at hand
